

Privacy Window Film

**You can see out while others cannot see in
Frosted, blackout or partial privacy
Day and night time privacy**

It makes us feel uneasy to be in full view of the outside world. Sometimes (maybe for security reasons) we would like to watch others, while they cannot see us.

If you would like to see out while others cannot see in SUPATINT PRIVACY FILM can help.

One way reflective films provide daytime privacy allowing you to see out and prevent others seeing in. You are now able to keep a discreet eye on unwelcome visitors to your factory, shop, office, home or car. Your view out is virtually unimpaired.

With an extensive range of colours available we can produce signs or logos to match your existing corporate colour scheme or design.

They can be used extensively not only on glass windows but on doors and signs.

- You can see out - others cannot see in.
- Day or night time privacy.
- Full range of patterned films available.
- Frosted film for full privacy.
- Total blackout for ultimate light and vision blocking.
- Coloured vinyl available for corporate identity matching.

Besides one way vision, window film offers you the opportunity to have your windows totally private both day and night. This is achieved quickly and easily by using frosted, blackout or patterned films.

Areas such as changing rooms, toilets, bathrooms etc. which require a higher degree of privacy, both night and day, are easily transformed.

Frosted films are ideal for internal office windows, partitions or doors. A bespoke service gives you an infinite choice of patterns and designs. Our custom design service allows you to use your own company logo, creating a unique corporate look to doors and large glass panels.

Available as a full blackout, frosted or designer pattern there is a privacy film to suit your every need.
